Invest in a spacious orangery room from CWS

CWS Home Improvements continues its successful trading 10 years on as the economy continues to rebuild itself.

Why? well, managing director James Thackra believes: "Our success is based on recommendations over the years. We offer an excellent product and service throughout with competitive pricing and no sales gimmicks.

"I believe this has been the right direction to go in from the very first day. The housing market has slowed and homeowners are now looking to extend and improve their properties which is why the home improvement sector has survived."

What's next for CWS Home Improvements?

James said: "We are just updating the showroom at present and have installed a new specialised orangery room with other changes taking places including a new aluminium bi-folding door, new stable door, window designs and a new website to view shortly at www.cwswindows.co.uk. Our new product focus is Exceptional Orangery Rooms at down to earth prices."

Orangeries are no longer the luxury of guest houses and palaces. You can now enjoy a fabulous orangery room with breathtaking looks at very affordable prices.

Your orangery room is designed to complement your living space and add a whole new dimension to your home and garden.

A bespoke orangery room adds a spacious, light filled space to your home.

It may be your kitchen, your home office, a family sitting room, or a private dining room; somewhere to relax with a morning coffee, curl up with a good book or have an after dinner night cap.

With slender lines and a wealth of roof design options, an orangery room allows natural light to flood into your home like no other extension.

The large glazed atrium opens up the roof space to the sky while the brick pillars create a versatile and flexible space for you, your family and friends.

Thanks to the latest design techniques and high performance materials, an orangery room is

a room for all seasons.

Whether it's a cosy winter's night indoors or a long hot summer day in the garden, it will not only add value to your home but will make you the envy of all your friends and neighbours.

Crafted and designed to suit your individual requirements and installed by our skilled craftsmen, every aspect of your orangery room is taken care of, transforming your home and adding the WOW factor.

Design options include double-ended or standard construction in Edwardian or Georgian styles with the choice of aluminium cornice to create a distinct look.

With optional solar control, self-cleaning glasses and energy rated window frames, your elegant orangery room is energy efficient and easy to maintain.

Whatever style you choose, your orangery room will truly become a room to enjoy throughout the whole year.

Examples of recent CWS orangery design, both inside and out

CWS continues to grow its business through the commercial, trade and domestic market and welcomes all enquiries supply only or supply and fit on all products, windows, doors, conservatories, orangeries, composite doors, bi-folding doors, roofline which are available in a range of colours and finishes.

CWS Home Improvements is situated on Holmfirth Road, Shepley, next to Goodall Car-

vans and boasts an extensive showroom and trade counter for all your building plastic products which are available on free delivery across the Huddersfield area.

Opening hours are Monday to Friday 8am to 5pm and Saturday 8.30am to 12noon.

Contact CWS on 01484 609977/607075 or look at www.cws-windows.co.uk

HISTORY OF THE ORANGERY

THE orangery originated from the Renaissance gardens of Italy.

With a stunning design and proportion, an orangery was a symbol of prestige and wealth.

It is also a significant architectural feature of the finest town and country houses.

The centuries may have passed but the

elegant appeal of either a traditional designed orangery or a contemporary styled one still remains a highly desirable feature of any home.

Bespoke orangery rooms offer traditional elegance or contemporary chic at an affordable price and add a spacious light living space to any home.
