

# Much more to Lockwood than meets the eye

**A**s you drive through Lockwood, it's easy to think of it as an area to pass through on your way to

and from work. Being situated alongside one of the busiest routes in Huddersfield, Lockwood sees

thousands of vehicles pass through every morning and evening on the daily commute to Huddersfield or further afield.

However the Lockwood area itself has much more to offer with a collection of specialist shops and eating places. Specialist shops sell everything from workwear to gifts, antiques to impressive home furnishings.

At the centre of Lockwood is Lockwood Bar, one of the busiest road junctions in Huddersfield which takes traffic to and from the Holme Valley, Meltham and Crosland Moor. In recent years the roads around this major junction have become home to numerous quality shops which are known and loved across the Huddersfield area.

With plenty of free parking around the centre, it's well worth stopping a while and taking a

look at what Lockwood has to offer as a shopping centre.

Indeed the Lockwood of today boasts much, much more than just a main commuter road. Just on the edge of the area is Beaumont Park, one of the most popular and well loved local parks.

It also has a rugby ground, fitness centre and is of course home to the magnificent Lockwood Viaduct which spans the valley.

Years ago in the 1800s Lockwood was home to a spa baths, which at one time was expected to rival the world famous spa baths of Harrogate in North Yorkshire.

Take a look at the range of shops and discover what Lockwood has to offer!

The impressive Lockwood viaduct which spans the valley.
