Italian style for your dream kitchen

SITUATED in nearby Horbury Road, Wakefield is the new Twenty5 Design kitchen showroom which offers inspiration for great kitchens, both contemporary and traditional.

After several years trading at their previous premises, the move to a new larger showroom has allowed business partners Lucy Eckersley and Mark Speight to display a much larger selection of kitchens with bathrooms and bedrooms on display upstairs. The new showroom is one of only two in Yorkshire to be awarded the right to supply the brand new range by Metris. This range offers kitchens which are designed in an Italian style and which have won the Best Kitchen Design prize at the Grand Design Awards. The range in the showroom caters for all tastes, from traditional to contemporary kitchens as well as stunning bedroom furniture and a selection of flooring which guarantees to add the essential finishing touch. Lucy said: "We're really looking forward to the future and are very excited about our new enterprise Twenty5 Design and Build. Working with a team of highly respected and trusted tradesmen, we are now able to offer the whole package. "From your first consultation, we offer individual designs which are created to suit you and your needs, right through to the final installation and any building work that entails. We have the skills, experience and passion to make your dreams a reality." Twenty5 Designs prides itself on its project management which ensures customers have complete peace of mind. Customers are free to choose units the fittings to provide the best possible use of their kitchen

TESTIMONIAL

● One delighted customer said: "I initially commissioned Twenty5 to work on a new kitchen, but the quality of their work was such that I soon had them carrying out work on bedrooms and fitting new flooring too. I'd give them 10 out of 10 for service. The men were very reliable and the end results superb. If there were any problems, Mark always dealt with them personally; although there were very few hitches and the whole job ran very smoothly."
