Why go to a main dealer?

Give your support to local garages

■ **GARAGE:** Trust your local garage to keep you on the road

ASK yourself the question! Is your car ready for a service or in need of repair?

Then why not think about giving the business to your local independent garage as opposed to taking it in to a large main dealer. These days your local garage is well equipped to tackle all kinds of work on all kinds of vehicles, from a full service to an MOT or bodywork repair. As well as the vehicle expertise, your local garage will also give you personal service, attention to detail and good customer care. After all, if you become a regular customer, you also become a valued customer. Today small independent local garages can offer an equivalent service to the big main car dealers. Often they offer a courtesy car service, provided this is booked in advance, and will also carry out a valet after work is complete, deal with vehicle air conditioning problems and even get new car keys issued. New European legislation, which has recently come into force, now offers the motorist greater choice in the after sales, repair and servicing market. The new regulations are called Block Exemption and give car owners a greater option. As long as local garages use genuine manufacturers' parts and follow industry guidelines, they are free to service and repair. Motorists often find that going to a local garage saves them money on their servicing,

■ **TYRES:** Get your tyres checked ready for winter

MOTs and repairs, as a smaller organisation doesn't have the same overheads as a big main dealer. If you have an accident or break down, many offer a recovery service and will always try and accommodate your vehicle as soon as possible to get you back up and running. Many local villages have their own garage right

on the doorstep, providing as a much needed facility for local motorists. Why not make the most of this and save yourself the hassle of having to drive miles into town to a main dealer, and then have to find a way to collect your car again when it's ready. You'll also be well looked after as a valued customer for many years to come.
