DO you love your home but are bored of the drab decor? Are you looking for a larger house but can't afford to move? If so, a touch of TLC can work wonders.

Often one of those jobs that gets assigned to the 'I'll do it tomorrow' list, it can be all too easy to forget that flaky bit of wallpaper or ignore that damp patch, but with a great variety of shops and professionals right on your doorstep, there's no better time to make those home improvements.

Decorating out-dated or dingy rooms is of course a key element to any home improvement plan and with a simple smattering of stylish accessories, as well as some new furniture, contemporary flooring and lick of fresh paint or modern wallpaper, you

can easily transform even the duller of rooms.

Likewise, investing in a new bathroom or kitchen can be a huge asset.

Two of the most used and valued rooms of a house, a stylish new kitchen and contemporary bathroom can add that real 'wow' factor to your home and create the perfect place to relax and unwind.

Alternatively, if it's the size of your home that's restricting your family life, why not consider extending?

Whether it's a stylish loft conversion, two storey extension, basement development or new conservatory, there are a number of ways in which you can make the most of what you've got.

Don't forget about the outside of your

house either. The first sight that welcomes you home from a long day at work, take a good look at your property and be honest about how much curb appeal it has.

Small tasks such as painting your garage door and tidying your garden or front yard by adding pots of colourful flowers and some decking to the back garden can make a world of difference.

Or, if your entrance needs a touch more attention, a new driveway, smart fascias, new roof and high quality windows and doors are all easy yet effective steps to smarten up your home.

So, to get the most from your home now and in the future, make the time to get those little jobs done which will much improve your property.

Finishing touches:

New furniture and flooring can breathe life into old and dingy rooms. Ivory leather sofa furniture and recliner chair roomset from Harveys – The Furniture Store.
