

10 years strong and continuing to build on an excellent reputation

SPECIALISING in renovation, extensions, plastering and small building works, local construction company, Probuild, has the expertise to improve your home.

Managing director Evan Thomas founded the company in 1998. Since then the business has grown on the strength of recommendations, and in 2002 Probuild (North Wales) Ltd was established.

Probuild was one of the first in the area to adopt the 'pro' prefix to its company name to reflect its expertise and professionalism. There are now many other companies with the same idea, but Probuild

remains an individual company.

Committed to providing the highest standards of workmanship, Evan has always encouraged his employees to gain professional qualifications.

During the last 10 years, many of the firm's 10-strong team of experienced local tradesmen have gained their professional qualifications whilst working with Probuild and studying at Coleg Llandrillo or Coleg Menai, in partnership with Construction Industry Training Board initiatives.

Probuild has also developed excellent business relationships with suppliers and sub-contractors in the area, which goes a long way towards a healthy local economy.

It is a member of the Federation of Master Builders and has achieved Investors in People.

A recent article from the Royal Institution of Chartered Surveyors (RICS) highlighted a national shortage of skilled tradesmen.

In contrast with RICS' findings, Probuild has flouted this trend and its skilled workforce enables the company to offer clients first class service.

Evan said: "With the current uncertainty in the housing market now is a prime time to renovate, upgrade or extend your property, rather than take on more debt in a falling market."

"Estate agents often state that 'loft conversions and extensions are the real money makers – doing both could add up to £42,000 to the value of your home.' Making improvements now will also mean you're perfectly poised to maximise the appeal of your property when the market strengthens."

Probuild prides itself on its professional, customer-focused approach, applying its extensive experience to help you improve the look of your home, or add value to your property. The company is experienced in all types of domestic and commercial property renovation and extensions, including; loft and garage conversions, drives, kitchens and bathrooms.

The company can provide you with details of projects, and many of their clients, past and present,

are happy to pass on their recommendations.

If you are considering improving your home, whether the project be large or small, Probuild will be pleased to meet with you to survey the works and provide a free estimate.

Evan said: "We will arrange an appointment to survey the works and send you an estimate – all free of charge."

"Once accepted, we will agree a start date and ensure the works are completed within a realistic timescale. We will manage the whole project from start to finish for those who don't have the time to spend organising the details."

Call Probuild today on 01492 879953 to develop your ideas into an affordable reality!
