We the undersigned demand..

1) Police be given the tools to catch knife offenders. Every officer in a knife hotspot must be given a hand-held magnetic scanner - less offensive than searches, more effective than arches.
2) An amnesty is launched to bring in the blades.
3) A&E units must report treating stab victims.
4) All pupils are taught knives solve nothing.
5) Texts and the internet are used to win the battle.
