We wish you all a happy Christmas and a Healthy New Year

If you've driven by Tregele Service Station recently, you may have noticed a few changes on the site.

From September 25, the garage in Tregele, near Cemaes Bay on Anglesey, has been under new ownership. The petrol station and shop is running as normal, but the new owners have also re-opened the on-site workshops to offer a full range of facilities for the servicing and repair of your vehicle.

Running a garage has been a longstanding dream of brothers Chris Clark and Jamie Williams, along with their business partner, Jamie Price; so the opportunity to purchase the service station was too good to miss.

Jamie Williams is an RAF-trained mechanic, Chris has a 20 year

background in the car windscreen business; while the other Jamie has recently completed an apprenticeship under Volkswagen. With the partners' combined experience and motoring knowledge, it makes perfect sense that they should offer full garage facilities at the service station.

So, if your vehicle is in need of any work, or you just want to bring it in for the once-over, to make sure it's safe for winter driving, don't hesitate. The lads are friendly and knowledgeable and will be happy to chat and discuss any problems you're experiencing with your car.

The workshop is set up to offer repairs and servicing, exhausts, batteries, spares, tyres, fitting and balancing. The latest digital tracking equipment is available and the staff can even provide a pre-MOT check and then take your vehicle along

Road to success: As well as having a petrol station and shop, Tregele Service Station now has a workshop offering a full range of facilities for the servicing and repair of your vehicle.

Meet the team: Jamie Price, Chris Clark, Hayley Bowler and Jamie Williams of Tregele Service Station.

to a local MOT centre for testing.

Chris is putting his experience in the car windscreen industry to good use by offering a mobile windscreen fitting and repair service, from the garage.

Not only can he supply and fit both new and used windscreens, but he can also offer windscreen repairs for chips and scratches. Whether you drive a car, van or lorry, Chris can sort you out. He can even supply and fit windscreens for classic motors.

There's all this, plus the same great quality you expect from the

four pump petrol station and shop, run by manager Hayley Bowler. Stop off to fill up on fuel and supplies, such as groceries, newspapers, snacks; coal, logs and Calor Gas.
