

## WHO IS WCF Fuels North West?

WHETHER you're a homeowner looking for domestic heating oil, a farmer requiring gas oil or a grower in need of quality low sulphur kerosene, WCF Fuels North West has the expertise to help.

Originally formed as a farmers co-operative in 1911, the firm offers a diverse array of services including fuel distribution and temperature controlled distribution.

One of the few remaining privately owned fuel distributors in the North West, WCF supplies oil for domestic heating and commercial purposes, and to farmers and growers, filling stations and marine users, to name just a few.

# Fuelling the community

**WE SUPPLY DOMESTIC HEATING OIL | FARMERS AND GROWERS | COMMERCIAL | INDUSTRIAL | FILLING STATIONS | MARINE USERS**

### We also supply low Sulphur Kerosene for greenhouses.

The British Standard maximum Sulphur content is now 0.1% by weight. Our Kerosene of course is guaranteed to meet this Standard. However the typical level of Sulphur in our Kerosene is half of the British Standard at 0.5% by weight.

## WCF operates 16 tankers in the North West

The company operates 16 tankers in the North West, some of which are based in Lathom. WCF Fuels North West is a Texaco branded distributor and takes great pride in providing customers old and new with an excellent WCF delivery service and the finest quality Texaco products.

Long-established, WCF has a solid customer base of over 7,000 regular fuel buyers in the North West and is continuously adding to that number. The company attributes its success to its back-to-basics approach, customer focused attitude and fast yet cost-efficient service.

Dave Spencer from the company, explains: "Our business is owned largely by the employees, both staff and drivers, so it is in our best interest to offer our customers the very best of value, quality and service. We don't have large impersonal call centres where the customer is just another number - we value our customers and treat them as we would wish to be treated ourselves."

"We believe in maintaining old-fashioned customer focused values yet being at the forefront of technology. Our cutting-edge systems allow us to perform equally well with our smaller domestic customers, who may make a purchase once a year and like a little chat, as we do with our commercial customers, who might buy two or three times a week for deliveries anywhere in the country and want to be speedy and businesslike."
